

The Future of Making Things with Autodesk AutoCAD

EVENT SPONSORS

16 June 2015, Tuesday o 9.00am - 12.30pm o Wisma FMM, Kuala Lumpur

FREE Registration

The local manufacturing industry is one of the cornerstones of the Malaysian economy. Innovation, productivity efficiency and product quality are hallmarks of Malaysian manufactured products. To maintain a competitive advantage and improve time to market, manufacturers continuously look at design process improvements and workflow optimization.

Autodesk AutoCAD, with its rich history in the design industry coupled with one of the widest breadth of industry certified partners and trained users, is uniquely positioned to help manufacturers imagine, design and create products that stand out from the competition, and allow organizations to better communicate their brand and design entity to improve market share and expand into new territories.

An investment in AutoCAD can help you:

- Accelerate your product design and development lifecycle
- Accurately document and protect the integrity of your design data with TrueDWG certified files

SPECIAL INVITED SPEAKER

Kelly Chong, Regional Sales Manager Platform Solution & Emerging Business ASEAN, Autodesk

- having 4 years experience in CAD industry and responsible for the AutoCAD business in ASEAN. Working and interacting with customers across diverse industries, Kelly has intimate knowledge of the key pressure points and demands that the design industry face, and how Autodesk can help customers to adapt to an ever-changing business landscape.
